PROFESSIONAL SUMMARY

Computer Science student specializing in Artificial Intelligence and Machine Learning with hands-on experience in deep learning, computer vision, and NLP projects. Skilled in building practical AI solutions using Python, TensorFlow, OpenCV, and modern ML frameworks. Passionate about solving real-world problems through intelligent systems, with a strong foundation in algorithms, data structures, and model optimization.

EDUCATION

B.Tech in Computer Science and Engineering (AIML) Malla Reddy University	2023-2027 CGPA: 7.9
Intermediate – MPC SR Prime School(SR Prime Warangal)	2021-2023 90%
Intermediate – MPC Ekashila High Schoo	2020-2021 97%

RELEVANT COURSEWORK

DSA, Algorithms, DBMS, AI/ML, Deep Learning, NLP, CV, Full-Stack Development, Data Analytics

PROJECTS

- Leaf Disease Detection Using Image Processing

–Developed an image-processing-based system for plant leaf disease detection enabling early diagnosis and improved crop productivity.

–Implemented image acquisition, preprocessing, segmentation, and feature extraction to analyze leaf characteristics.

–Applied CNN and deep learning techniques to classify healthy and diseased leaves accurately.

–Designed a reliable and efficient disease identification system to help reduce crop loss and pesticide overuse.

–Technologies Used: Python, OpenCV, CNN, TensorFlow, Keras
- Object Detection & Visualization using CNN

–Built a CNN-based object detection system capable of identifying and classifying multiple objects in images and videos.

–Implemented bounding box visualization for clear object localization and interpretation.

–Explored applications in smart surveillance, autonomous systems, and industrial automation.

–Evaluated model performance using accuracy, precision, recall, and mAP metrics.
- Movie Recommendation System

–Developed a recommendation engine suggesting movies based on user preferences and historical ratings.

–Implemented collaborative filtering / content-based filtering techniques for personalized recommendations.

–Performed data preprocessing, similarity computation, and model evaluation for improved accuracy.

–Demonstrated practical application of machine learning algorithms in recommendation systems.

CERTIFICATIONS

- Reinforcement Learning – NPTEL Certificate (Oct 2025)

Quiz Competition Certificate – [Mallareddy University] (Jan 2024)

Innovation Program Certificate – [Mallareddy University] (Nov 2024)

TECHNICAL SKILLS

Languages: Python, Java

Frameworks: React.js, TensorFlow , PyTorch ,Keras

ML/AI: TensorFlow, PyTorch, Scikit-learn, OpenCV,

HuggingFace, NLP, CV, Transformers

Tools: Git, MySQL, AWS

Interests: ML Systems, Web Apps, Deployment
